

Special Arrangement for the University Health Service (UHS)

from 29 January 2020 to 2 February 2020

Further to today's announcement made to all staff from the Task Force on Infectious Diseases titled "Special Work Arrangements after Chinese New Year Holidays", we would like to provide further details about the operation of the UHS during 29 January 2020 to 2 February 2020.

The UHS will maintain operation during this period. However, in order to reduce the risk of the spread of the Novel Coronavirus Infection (2019-nCoV), some previously scheduled non-urgent appointments will be postponed. Patients with non-urgent appointments during this period are also advised to call the respective UHS clinics to reschedule their appointments to a later date. At the same time, the UHS will redeploy resources to dedicate fully to handle consultations and associated care related to the 2019-nCoV threat. It will respond to requests and referrals from the campus residential community of students and visitors, especially those returning from affected areas.

For 2019-nCoV matters, please contact the UHS at 39172514

For appointment matters, please contact the following:

Medical appointments	2549 4686
Dental appointments	2859 2511
	2859 2512
Physiotherapy appointments	3917 2509

Thank you.
